About

I am a full-stack web developer with a critical thinking mind-set who prones to problem solving in many aspects of life, design and code development. I have been listening, learning, practicing as well as seeking a new role which leverages my skill set. Now it is time to connect and find out what the future will bring.

Language Proficiency

English: B2 (Cambridge First Certificate).
German: B2 Upper-Intermediate.
Thai: Native.

- Critical Thinking
- Problem Solving
- Design
- Team Management
- Project Management

Projects:
Currently developing a personal landing page for showcasing full-stack front-end, and back-end. Simutaneously streamlining GitHub repositories for better clarity and presentation.

Technical Skills: & continuosly learning.
